SUMMARY

Full-stack developer with 2+ years of commercial experience building modern web applications using React, Next.js, TypeScript, Django, and Python. Experienced in developing responsive user interfaces, REST APIs, backend integrations, and scalable software solutions. Skilled in collaborating within Agile teams, improving application quality through testing and refactoring, and leveraging AI-assisted development tools to increase productivity.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, Python, SQL, HTML5, CSS3
- **Frontend:** React, Next.js, Astro, Tailwind CSS, Responsive Web Design
- **Backend:** Django, Django REST Framework, Node.js, Prisma, REST APIs, Prisma ORM
- **Testing:** Playwright, Cypress, Behave **Tools:** Git, GitHub, Docker, Postman, Swagger, Cursor AI
- **Design:** Figma, Adobe Creative Suite, Canva, 3D **Concepts:** Agile Development, Scrum, UI/UX Design, API Integration, Software Testing

EXPERIENCE

- **Full-Stack Developer Intern** Jun 2026 – Present
Procforce Software House Remote
 - Built a full-stack QR code restaurant ordering and management platform using React, TypeScript, Prisma, and REST APIs, implementing frontend interfaces and backend functionality.
 - Implemented interactive 3D product configurators to improve product visualization and enhance user experience.
 - Collaborated with designers and developers to deliver client-focused web solutions using modern development practices.
- **Junior Full-Stack Developer** Jun 2024 – Jun 2026
Omnilexia Remote
 - Built and maintained frontend features using React, TypeScript, Next.js, and Tailwind CSS.
 - Extended backend functionality and developed REST API integrations using Django REST Framework.
 - Improved application reliability through debugging, refactoring, testing, and performance optimization.
 - Participated in code reviews and Agile development workflows.
 - Created automated tests using Playwright, Cypress, and Behave.
- **Software Engineering Intern** Feb 2024 – Jun 2024
Omnilexia Remote
 - Implemented frontend and backend features using React, Django, and REST APIs.
 - Designed UI/UX prototypes in Figma to support product development decisions.
 - Produced digital product assets and marketing materials using Adobe Creative Suite and Canva.
 - Collaborated with developers and designers during iterative product improvements.

EDUCATION

- **Bachelor of Science in Informatics (Graphic Design & Web Development)** 2022 – 2025
Jönköping University, Sweden
- **Master of Science in Software Engineering** 2025 – Present
Linnaeus University, Växjö, Sweden, Remotely

ADDITIONAL EXPERIENCE

- **Graphic Designer** 2022 – 2024
Esports Student Association “Justice”
 - * Designed branding assets, promotional materials, and merchandise supporting visual communication for association campaigns.
- **Student Ambassador** 2023
Jönköping University
 - * Represented the Graphic Design and Web Development program at university events and open days.
