PROFESSIONAL SUMMARY

Full-stack developer with experience building and maintaining web applications using React, TypeScript, Django REST Framework, Python, SQL, and Docker. Skilled in frontend development, REST API integration, UI/UX design, testing, and Agile software development practices. Experience collaborating within cross-functional teams through internships, software projects, and product development environments. Passionate about creating scalable and user-centered applications with strong usability and performance.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, SQL, HTML5, CSS3
- **Frontend:** React.js, Next.js, Tailwind CSS, Responsive Web Design
- **Backend:** Django, Django REST Framework, Node.js, REST APIs
- **Tools & Technologies:** Git, GitHub, Docker, Postman, Swagger, Cursor, AI-assisted software development
- **Testing:** Playwright, Cypress, Behave
- **Design Tools:** Figma, Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Adobe Premiere Pro, Canva, 3D
- **Methodologies & Concepts:** Agile Development, UI/UX Design, API Integration, Software Testing

PROFESSIONAL EXPERIENCE

- **Full-stack Developer Intern** Jun 2026 – Present
Procforce Software House Remote
 - Redesigned company and client websites with a strong focus on modern UI/UX, responsiveness, and usability. Translated Figma design into production-ready code.
 - Developed a QR code-based restaurant ordering system and restaurant management application using React, TypeScript, and Prisma, implementing both frontend interfaces and backend APIs.
 - Developed and integrated interactive 3D product configurators to enhance user experience and product visualization.
 - Collaborated with designers and developers to deliver high-quality, client-focused web solutions.
- **Junior Full-Stack Developer** Jun 2024 – Jun 2026
Omnilexia Remote
 - Developed and maintained frontend components and application pages using React, TypeScript, and Tailwind CSS.
 - Extended backend functionality and integrated REST APIs using Django REST Framework.
 - Improved application stability through debugging, refactoring, and performance optimization.
 - Participated in code reviews and collaborated in Agile development processes.
 - Worked with Docker, Git, and SQL-based systems to support development workflows.
- **Software Engineering Intern** Feb 2024 – Jun 2024
Omnilexia Remote
 - Built and modified frontend and backend features using React and Django.
 - Designed UI/UX prototypes in Figma to support product development decisions.
 - Developed and maintained automated tests using Playwright, Cypress, and Behave.
 - Created marketing materials and product assets using Adobe Creative Suite and Canva.
 - Collaborated with development and design teams on product improvements.

EDUCATION

- **Bachelor of Science in Informatics (Graphic Design & Web Development)** 2022 – 2025
Jönköping University, Sweden
- **Additional Studies** 2025 – 2026
Linnaeus University, Växjö, Sweden
 - Relevant coursework: Machine Learning, Systems Modeling and Simulation, Lean Startup, Code Transformation and Interpretation
- **Blended Intensive Program: Design IT for the Better** Nov 2023
Amsterdam University of Applied Sciences

PROJECTS

- **Painting with Emotions** 2024
Technologies: React, TensorFlow
Developed an interactive application that detects facial expressions and generates emotion-based digital artwork.
GitHub: github.com/ju-nmd2022/creative-coding-final-project-insideout
- **EmpowHERment Platform** 2023
Technologies: Figma, UX/UI Design
Designed a professional networking platform focused on women's empowerment.
Created user flows, wireframes, prototypes, and interface designs during an international design sprint.

ADDITIONAL EXPERIENCE

- **Graphic Designer** 2022 – 2024
Esports Student Association "Justice"
 - Created promotional materials, branding assets, and merchandise designs.
- **Student Ambassador** 2023
Jönköping University
 - Represented the Graphic Design and Web Development program during university events and open days.

LANGUAGES

- Polish: Native
- English: Professional Working Proficiency (B2/C1)
